

The Daily Market Report

PORTLAND, April 13.—Oranges strawberries are now the features of a fruit market that attracts most attention, and apples as a result are less neglected. This is the first of the year when oranges are at their best, and they are by far the active factor in the fruit trade. Strawberries have been coming from California in a small way for weeks, but the berry season is now opened today, with the arrival of the first shipment of Florida berries. The consignment was a small one, but a little short in color, it was of fair quality and sold at \$3.75 a crate of 15 baskets. From this time on strawberries gradually come in more freely, the supply promises to be light week or two. Florida Tomatoes Coming. The other car of Florida tomatoes, third of the season thus far, is expected to reach the city tomorrow. The product will be placed on the cars at \$3.25 to \$3.50 a crate. The cars already received have been locally sold out.

Eggs Steady and Unchanged. There were no new features in the egg trade today, quotations ranging from 21 1/2 to 22 cents but there was some difference of opinion as to the outlook for the remainder of the week. Some traders held that the market was a shade weaker, while others declared that present prices would hold easily to the end of the week. As yet there is no accumulation of stock on the street, the surplus daily going into storage here and to the Sound markets. Receipts, according to the Board of Trade, were 540 cases.

Halibut Drops to Six Cents. More liberal supplies of halibut and a slightly weakening effect on the trade in that fish, and the price was put down to 6 cents a pound today. Chinook salmon, from the Sacramento river, is in adequate supply and quoted at 12 1/2 cents.

Flour Likely To Go Up Soon. The prospect is for another lift in flour prices in the near future. At going prices, which are a good deal higher than at the first of the year, the market is extremely firm and the trend of wheat values is still strongly upward in the country generally. Seattle millers have put their flour prices up 20 cents, and in view of this it is altogether unlikely that this market will hold at present quotations long.
